

STATEMENT OF PURPOSE - FOR YOUR INFORMATION - PLEASE KEEP

I, Dr. Raphael d'Angelo, am offering to provide research on bodily substances for the presence of parasites to those persons who contract with me for this purpose and agree to become voluntary Research Associates for this undertaking. All Research Associates will be entitled to receive a full disclosure of the results of this research.

My qualifications for conducting this research are as follows: medical doctor for 40 years; medical technologist for over 47 years with special training in microbiology and parasitology; naturopathic training under the auspices of the American Holistic Medical Association; memberships in the American Society of Parasitology; the American Society for Tropical Medicine and Hygiene; American Society for Microbiology; Medicine Man member of the Nemenhah Native American Traditional Organization.

My right to offer my professional services that may or may not be approved by established medical guidelines on behalf of those persons who contract for my research services is protected by my Declaration of Ninth Amendment Rights previously filed with the Colorado Secretary of State; and by the Native American Free Exercise of Religion Act passed by Congress and signed into law in 1993.

The practice of my profession includes conducting medical research, sharing results with Research Associates, recommending ways and methods for supporting health; and providing within my capability specific information, helps, remedies, treatments, supplies or other items requested by Research Associates to support their health.
