

**PARAWELLNESS RESEARCH**  
**(A Private Membership Association)**  
**MEMBERSHIP CONTRACT**

I, \_\_\_\_\_, for membership fee paid in hand, do hereby apply for membership in ParaWellness Research, a private membership organization. With the signing of this membership agreement, I/we accept the offer made to become a member of ParaWellness Research and have read and agree with the following Declaration of Purpose from Article I of ParaWellness Research's Articles of Association.

1. This Association of members hereby declares that our main objective is to maintain and improve the civil rights, constitutional guarantees, and political freedom of every member and citizen of the United States of America. We believe and affirm that the Constitution of the United States is one of the best documents ever devised by man, and the signers of the Declaration of Independence did so out of love for their country.

2. We believe that the First Amendment of the Constitution of the United States of America guarantees our members the rights of free speech, petition, assembly, right to contract, and the right to gather together for the lawful purpose of advising and helping one another in asserting our rights under the federal and state constitutions and statutes. We strive to maintain and improve the civil rights, constitutional guarantees, freedom of choice in health care and political freedom of every member of this Association.

IT IS HEREBY Declared that we are exercising our right of

“freedom of association” as guaranteed by the First and Fourteenth Amendments of the U.S. Constitution and equivalent provisions of the various state constitutions. This means that our Association activities are restricted to the private domain only.

3. We declare the basic right of all of our members to select spokesmen from our number who could be expected to give wisest counsel and advice concerning the need for physical and mental health care assistance and to select from our number those members who are the most skilled to assist and facilitate the actual performance and delivery of care.

4. We proclaim the freedom to choose and perform for ourselves the types of therapies and modalities that we think best for assessing and preventing illness of our minds and bodies and for achieving and maintaining optimum wellness. We proclaim and reserve the right to include health options that include, but are not limited to, cutting edge modalities and therapies practiced or used by any types of healers or therapists or practitioners the world over, whether traditional or nontraditional, conventional or unconventional.

5. Specifically, the mission of our Association is to provide members with the highest level of quality care and the most effective methods of treatment. ParaWellness Research is a membership program for health risk identification and remediation for members with the goal of improving and maintaining good

health and well-being through the examination of various bodily substances such as urine, stool, blood and saliva for imbalances in the internal terrain. Using methods of microbiological examination, but not limited to these alone, risk factors are identified and results are shared with members and those whom they so designate. Members also receive specific information on ways to correct the imbalances found as well as methods, materials and supplies for supporting their health goals. We treat members and their health and medical condition, and not merely the symptoms experienced. Our Association understands that wellness has many dimensions and strives every day to stay on the leading edge of new technology. More specifically the Association has an integrative/holistic medical doctor who is also a medical technologist with over 50 years' experience. He presently performs parasite investigations on stool and urine for members who contract for this service. For members whose test results require advice, information or treatment; these may or may not conform to the conventional practice of medicine or any other conventional healing modality. Recommendations and supplies needed may come from complementary and alternative disciplines such as aromatic medicine and medical aromatherapy, frequency specific microcurrent therapy, radiation hormesis therapy, botanical therapies of any kind, homeopathic therapies of any kind, energy therapies of any kind, including but not limited to, therapies involving light, color, sound, vibration, water, touch, crystals, rocks; and

any other therapies for the benefit of its members. The health and well-being of members is its priority and goal. The Association reserves the right to provide information on behalf of the Trustee's research from these activities to members in the form of various educational forums such as articles, blogs, booklets, interviews, videos and speaking to interested groups for optimization of health and well-being. Laboratory and other diagnostic tests and video/photographs that members share with the Association will be reviewed as time and workload permits. The Association will refer to other doctors, specialists, practitioners, or laboratories when it is deemed necessary for the health of the member.

6. The Association will recognize any person (irrespective of race, color, or religion) who is in agreement with these principles and policies as a member, and will provide a medium through which its individual members may associate for actuating and bringing to fruition the principles and purposes heretofore declared.

**MEMORANDUM OF UNDERSTANDING**

I understand that the fellow members of the Association that provide products, education, nutritional counseling and care do so in the capacity of a fellow member and not in the capacity as a licensed health care provider. I further understand that within the association no doctor-patient relationship exists but only a

contract member-member Association relationship. In addition, I have freely chosen to change my legal status as a public patient to a private member of the Association. I further understand that it is entirely my own responsibility to consider the advice and recommendations offered to me by my fellow

members and to educate myself as to the efficacy, risks, and desirability of same and the acceptance of the offered or recommended therapy and care, etc. is my own carefully considered decision. Any request by me to a fellow member to assist me or provide me with the aforementioned therapy and care,

etc. is my own free decision in an exercise of my rights and made by me for my benefit, and I agree to hold the Trustee(s), staff and other worker members and the Association harmless from any unintentional liability for the results of such care, etc., except for harm that results from instances of a clear and present danger of

substantive evil as determined by the Association, as stated and defined by the United States Supreme Court.

The Trustee and members have chosen Raphael Joseph d'Angelo as the person best qualified to perform health services to members of the Association and entrust him to select other members to assist them in carrying out that service.

In addition, I understand that since the Association is protected by the First and Fourteenth Amendments to the U.S. Constitution, it is outside the jurisdiction and authority of Federal and State Agencies and Authorities concerning any and all complaints or grievances against the Association, any Trustee(s), members or other staff persons. All rights of complaints or grievances will be settled by an Association Committee and will be waived by the member for the benefit of the Association and its members. Because the privacy and security of medical and health membership records maintained within the Association which have been held to be inviolate by the U.S. Supreme Court, the undersigned member waives HIPAA privacy rights and complaint process. Medical records kept by the association will be strictly protected and **only**

released upon written request of the member. I agree that violation of any waivers in this membership contract will result in a no contest legal proceeding against me. In addition, the Association does not participate in or provide coded forms for any government or commercial insurance program.

I agree to join the Association, a private membership association under common law, whose members seek to help each other achieve better health and live longer with good quality of life.

I understand that the doctors, nurses, and other providers who are fellow members of the Association are offering me advice, services, and benefits that do not necessarily conform to conventional medical care. I do not expect these benefits to include on-call coverage, hospital care, or the usual and customary care provided by most physicians. I will receive such primary and specialist care elsewhere. I fully understand that the benefits I receive from Association are not covered by my health insurance, Medicaid or Medicare.

As a member, I accept the goals of helping my body function better and choosing techniques that are both very safe and have a reasonably good chance to

succeed, realizing that no technique is foolproof. If I choose to forgo drugs, surgery, or radiation that has been recommended to me by others, I fully accept the risk that I might suffer serious consequences from that choice. Other aspects of informed consent will take place in my discussions with the providers and my fellow members of the Association.

My activities within the Association are a private matter that I refuse to share with the State Medical Board, the FDA, Medicare, Medicaid or my own insurance company without my expressed specific permission. All records and documents remain as property of the Association, even if I receive a copy of them. I fully agree not to file a malpractice lawsuit against a fellow member of the Association, unless that member has exposed me to a clear and present danger of substantive evil. I acknowledge that the members of the Association do not carry malpractice insurance.

I enter into this agreement of my own free will or on behalf of my dependent without any pressure or promise of cure. I affirm that I do not represent any state or federal agency whose purpose is to

regulate the practice of medicine. I have read and understood this document, and my questions have been answered fully to my satisfaction. I understand that I can withdraw from this agreement and terminate my membership in this association at any time. These pages and Article I of the Articles of Association of the Association consist of the entire agreement for my membership in the Association, and they supersede any previous agreement.

I understand that the membership fee entitles me to receive those benefits declared by the Trustee(s) to be "general benefits" free of further charge. I agree to pay as levied those benefits that I receive that are declared by the Trustees to be "special assessments", per Fee Schedule.

I enclose the sum of Ten Dollars (\$10.00) as consideration for my one-time lifetime membership contract, said term beginning with the date of the signing of this contract, and by these presents do hereby certify, attest and warrant that I have carefully read the above and foregoing ParaWellness Research's Contractual Application for Membership, and I fully understand and agree with same.

IN WITNESS WHEREOF I set my hand this \_\_\_\_ day of \_\_\_\_\_, 20 \_\_\_\_.
